

# Brain Training FOR SMART KIDS

Improve  
Matrix Reasoning  
Skills

with 50  
Exercises for the  
**WISC<sup>®</sup>-V Test**

Zoe Hampton

# Introduction

## Brain Training FOR SMART KIDS

### About this book

This practice book contains 50 Matrix Reasoning exercises. They will help to improve WISC®-V test problem-solving abilities. The exercises are nonverbal and appropriate for children of all linguistic backgrounds. Children are given figures and must identify the missing figure from the options provided. Two figures in a row have something in common, and the same rule will apply to two figures in another row.

### About WISC®-V Test

The Wechsler Intelligence Scale for Children/WISC® is used to assess intelligence in children aged 6 to 16. It consists of 16 primary and five complementary subtests. The WISC®-V assessment takes between 50 and 65 minutes to complete. The purpose of the test is to determine whether or not the child is gifted, as well as the student's cognitive strengths and weaknesses.
